INTRODUCTION

Family is a bond that cannot be broken...

All four Turtles have strayed...and gone their separate ways. Master Splinter, the Turtles' surrogate rat father and Ninjitsu master, sends Leonardo to South America to complete his training and to retrieve a medallion known to possess mystical powers. Back in New York, Raphael has secretly taken on the Nightwatcher persona. Roaming the streets at night, showing extreme prejudice toward his enemies, the dark vigilante quickly becomes a target for the law and is not welcomed by some citizens.

Donatello and Michelangelo have their own business, the Cowabunga Carl party service for kids. Michelangelo, humorous as ever, dresses in a turtle costume and tries to entertain hyperactive kids for a few bucks, while his geeky brother Donatello attempts to keep the family finances balanced.

When the Turtles reunite, tension builds between Leo and Raph. Meanwhile, the family must struggle to find answers to the latest monster appearances and the implications of a mysterious billionaire who appears to be linked to the Foot Clan.

The Teenage Mutant Ninja Turtles – Leonardo, Raphael, Donatello, and Michelangelo – are forced to fight through adversity to keep their family unified, and must battle against evil in an action-packed, ninja-fighting adventure.

The fate of the family is in your hands!

Black Gators

A group of tech junkies who own the sewers. Nothing to worry about for students of Ninjitsu.

The Foot Clan

This group of enemy ninjas will never learn. Remind them why they went into hiding after the last time you defeated them.

Bosses

Throughout your adventures you'll run into a few extra-tough villains. Be alert!

PLAYING THE TURTLES

Solo HUD

Health Indicator

Displays your Turtle's health status.

Star Meter

Filled by defeating enemies. When filled, you will unleash a Mega Attack. (See Special Moves section for more details).

Family HUD

Family Bond Meter

This meter is an indicator of how impressive your moves are to the other Turtles. Experiment by combining moves during acrobatics and combat to defeat your enemies!

But remember, if you call upon your brothers' aid unwisely, you may lose their respect and have to work harder to get them to help you again.

Cooldown Meter

Once a Turtle has done a co-op maneuver, he needs a few moments to recuperate. This meter shows how long he will be unable to do another co-op move.

Playing Nightwatcher

Health Indicator

Displays the Nightwatcher's health status.

Rage Meter

The Rage meter is filled by causing damage to enemies.

SPECIAL MOVES

Acrobatics

Jump/Double-Jump

Hold the **X** button to jump – the longer you hold it, the higher you'll jump. Press the **X** button again while the Turtle is in the air to cause him to double-jump and gain even more height.

Walling (Vertical and Horizontal)

Press against a wall while the Turtle is in the air to cause him to run against it. Depending on the angle you choose, the Turtle can run along the wall or straight up it!

Bird Flip

Press the **X** button while the Turtle is against a wall to allow him to jump off the wall. Keep doing this from wall to wall to climb tricky areas.

Pole Swing

Jump onto any pole to grab it. Press the **X** button to jump off.

Ledge (Grab and Run)

Many ledges can be grabbed by the Turtles if they touch them. If the ledge is long enough, use the left analog stick to make the Turtle run along it.

To drop off a ledge, press the **O** button. To leap away from a ledge use the left analog stick and press the **X** button. Try leaping from ledge to ledge!

Safety Roll

When falling far, press the left analog stick in the direction you are moving and press and hold the **△** button to do a safety roll.

Leo's Shadow Warp

Leo is able to use deep meditation to pass through certain objects like gates and iron bars. To use this move, walk up to the object and press the R1, R2, L1, or L2 button.

Don's Bo Vault

Don can use his Bo Staff to leap between low ceilings and deep pits. To perform this move, press the R1, R2, L1, or L2 button while Don is standing on the ground.

Mike's Nunchuck Helicopter

While Michelangelo is in the air, press and hold the R1, R2, L1, or L2 button to do the Nunchuck Helicopter. This will allow him to fly for a short period of time.

Raph's Power Climb

Using his incredible power and unique weapons, Raph can climb walls other Turtles can't. Get close to one of the specially identified walls, and hold the R1, R2, L1, or L2 button while using the left analog stick to begin climbing it.

Brother Throw

Press the □ button while one Turtle is in the air to do a co-op throw with the help of another Turtle. This is a great way to make very long jumps and overcome certain obstacles.

Hint: Many moves work well together, so be sure to experiment.

Combat

Weapon Attack

Hold the ○ button to charge up a lightning-fast weapon dash. When unleashed, the Turtle will charge at all surrounding enemies.

Kicking Flurry

Press and hold the △ button to perform a powerful spinning kick.

Ground Punch

While in the air, press the ○ button to ground punch. This pushes enemies back to give you some time to perform the next assault, but does little damage. The higher you are when you start this move, the longer its range.

Dodging

When in a combat situation, hold the R1, R2, L1, or L2 button and the Turtle will avoid an enemy attack.

To move away from your current location safely, dodge + move the left analog stick in any direction to make the Turtle do an evasive roll.

Super Family Attacks

Hold the □ button when a family member is available to perform a devastating co-operative move. Experiment with each Turtle and learn how to use them all effectively.

Mega Attack

You can charge your Turtle to unleash a devastating mega attack. With every enemy eliminated you will fill the Star Meter. Once the Star Meter is full, the mega attack allows you to get rid of enemies with one hit only. However, if you take a hit you lose your mega attack abilities and you will have to refill the Star Meter.

Nightwatcher Rage Attacks

Nightwatcher Bloodlust

Using this ability causes Nightwatcher to focus purely on harming his enemies. He will deliver increased damage while it is active.

Nightwatcher Righteous Fury

This move releases Nightwatcher's built-up rage! Every enemy on-screen will be hit for massive damage.

Meditation

Holding your Turtle still for a short period of time allows him to meditate on the situation. While doing this, he will gradually gain his health back.
